ELD INTEGRATION WITHIN MACROPOINT

Transparency and visibility are extremely important to our shipper partners. Keep up with the competition by integrating your ELD system within MacroPoint. This will enable you to provide location updates to LoadDelivered and your other customers with greater ease, increased privacy, and less work. Thousands of carriers and owner-operators across the country are taking advantage of this FREE service that is simple to set up and completely non-invasive.

Ways to Get Set Up:

ELD

- Direct connection to your ELD or GPS units allows MacroPoint to pull data from your provider's web portal

- Allow MacroPoint to receive webservices credentials to your account and you will be easily and reliably **connected**

TMS

- Direct connection into your TMS system

- Fully automates everything between your TMS and the MacroPoint system, **eliminating** the need for driver contact via cell phone

Benefits of Setting Up:

- Improve Operational Efficiency

- Eliminate Bothersome Check Calls

- Increase Miles & Revenue By Being A Carrier Of Choice

- Once You Are Set Up, You Don't Have To Do It Again
