

The Challenge

- On-going labor shortages
- Low retention rate and workforce productivity
- Volume increases due to business growth

Our Approach

- Informed actions through data-driven insights
- Establishing clear KPIs and budgetary goals
- Motivating employees through performance pay
- Dedicated on-site managers
- Corporate support for processes, insurance, safety, and recruiting

Solution

Capstone Logistics helped our partner reduce cost while retaining control over assets, systems, and WMS.

Full warehouse management:

- Unloading, scheduling, put-away
- Kitting and co-packing
- Order selection, picking, loading
- Contingency labor and management

Schedule a meeting to discuss how Capstone can help with your warehouse management needs.

Customer Profile

Multinational food & beverage manufacturer recognized for its diverse portfolio of snack products

Results

- Reduced overall cost per case
- Improved productivity and fill rate
- Improved order accuracy
- Lowered the number of damages and exceptions
- Reduced amount of late orders
- Partner extending the relationship by adding four new sites under Capstone management
